

## LIMITED LIFETIME WARRANTY

Compass Manufacturing International warrants to the original consumer purchaser that the faucet be free from defects in material and workmanship for as long as the original consumer purchaser owns the home in which the faucet was first installed.

In the event that Freendo faucets are used in a Commercial Application, this warranty is limited for a period of 5 years, unless otherwise specifically stated in the catalog and/or price book.

Compass Manufacturing International will replace, free of charge, during the applicable warranty period, any part or finish that proves defective in material and/or workmanship under normal installation, use and service. This warranty shall not apply to goods which have been subject to accidents, negligence or improper installation. Compass Manufacturing International will not be liable for other damages or losses, including, but not limited to: labor charges and/or damages incurred in installation, repair or replacement as well as any other kind of loss or damage. Proof of purchase from the original consumer purchaser must be made available for all warranty claims.

Compass Manufacturing International recommends using a professional plumber for all installation and repair. Compass Manufacturing International will, at its discretion, provide replacement parts for installation by consumer for any parts that prove defective under normal usage and service with new or equivalent parts. Replacement parts may be obtained by emailing the address below, calling the number below or by writing to:

## Install With Deck Plate

## Install With Deck Plate

1. Assemble deck plate ⑳ and putty plate ㉘ to faucet.
2. Position faucet on sink.
3. From underside of sink, assemble plastic base ㉞, clamp ㉛ and locknut ㉜ and screw ㉝. Tighten the locknut by hand and secure the screws with screwdriver.
4. Connect pull-out hose ㉚ to quick connect assembly ㉙.  
CAUTION: Make sure hose is properly engaged and secure in faucet quick connect assembly.
5. Fix the weight ㉛ to the pull-out hose ㉚.
6. Connect supply lines to water supply valve. (supply valves and supply lines are not included, please purchase them in local plumbing shops).  
CAUTION: DON'T OVER TIGHTEN THE SUPPLY LINES. OTHERWISE IT MIGHT DAMAGE THE WASHERS AND NUTS OF SUPPLY LINES AND CAUSE LEAK.
7. Remove spray ① from faucet and flush water through faucet to remove any line trash.
8. Replace spray ① and run water through faucet for checking leaks at all connections.

## Install Without Deck Plate

### Install Without Deck Plate :

1. Position faucet on sink.
2. From underside of sink, assemble plastic base (26), clamp (23) and locknut (24) and screw (25). Tighten the locknut by hand and secure the screws with screwdriver.
3. Connect pull-out hose (20) to quick connect assembly (19).  
CAUTION: Make sure hose is properly engaged and secure in faucet quick connect assembly.
4. Fix the weight (21) to the pull-out hose (20).
5. Connect supply lines to water supply valve. (supply valves and supply lines are not included).  
CAUTION: DON'T OVER TIGHTEN THE SUPPLY LINES. OTHERWISE IT MIGHT DAMAGE THE WASHERS AND NUTS OF SUPPLY LINES AND CAUSE LEAK.
6. Remove spray (1) from faucet and flush water through faucet to remove any line trash.
7. Replace spray (1) and run water through faucet for checking leaks at all connections.

## Configuration

Connect to water supply lines with either:

- (A) 3/8" O.D. Copper tubing (ball nose risers with the coupling nuts or;
- (B) 3/8" Copper tubing (no ball) with supplied tube head interior connector or;
- (C) IPS faucet connectors (1/2" )

**Warning:**

The supply valves and supply lines are not included.

**Important:**

Tighten connection with two wrench to prevent damage to tube body. Be careful not to bend the stem as this will void the product warranty.
