

LIMITED LIFETIME WARRANTY

Compass Manufacturing International warrants to the original consumer purchaser that the faucet be free from defects in material and workmanship for as long as the original consumer purchaser owns the home in which the faucet was first installed.

In the event that Freendo faucets are used in a Commercial Application, this warranty is limited for a period of 5 years, unless otherwise specifically stated in the catalog and/or price book.

Compass Manufacturing International will replace, free of charge, during the applicable warranty period, any part or finish that proves defective in material and/or workmanship under normal installation, use and service. This warranty shall not apply to goods which have been subject to accidents, negligence or improper installation. Compass Manufacturing International will not be liable for other damages or losses, including, but not limited to: labor charges and/or damages incurred in installation, repair or replacement as well as any other kind of loss or damage. Proof of purchase from the original consumer purchaser must be made available for all warranty claims.

Compass Manufacturing International recommends using a professional plumber for all installation and repair. Compass Manufacturing International will, at its discretion, provide replacement parts for installation by consumer for any parts that prove defective under normal usage and service with new or equivalent parts. Replacement parts may be obtained by emailing the address below, calling the number below or by writing to:

Configuration

A. Faucet Shank

B. Faucet Shank

C. Faucet Shank

Connect to water supply lines with either:

- (A) 3/8" O.D. Copper tubing (ball nose risers with the coupling nuts or;
- (B) 3/8" Copper tubing (no ball) with supplied tube head interior connector or;
- (C) IPS faucet connectors (1/2")

Warning:

The supply valve and supply lines are not included.

Important:

Remove the aerator and let both hot and cold water run for one minute. To clear any line trash. This will help clean any debris that might clog the system. Re-assemble aerator.

Test system for leaks.

1

Preparation / Mounting

1. Shut off water supply and drain lines. Clean sink surface thoroughly. Make sure mounting area is clean and dry.
2. Remove the plastic locknut 15 and washer 14 from faucet. Don't remove the putty plate 13 from faucet.

3. Position the faucet on the countertop with putty plate 13. Replace the washer 14 and plastic locknuts 15 on the faucet tailpiece 29 and tighten the plastic locknuts 15 by hand.

2

Pop-up Installation

Instruction for product with drain option only

- A. Remove pop-up drain stopper (18) and flange (19) with top rubber washer (20) for pop-up assembly.
- B. Insert drain body from underneath of sink drain hole. Replace flange (19) and top rubber washer (20) back to drain body (23). Tighten flange as far as possible.
- C. Slide bottom rubber washer (21) on drain body up against bottom of sink. Tighten locknut (22) firmly against base for tight seal.

- A. Replace pop-up drain stopper (18) to drain body (23) with o-ring in place, and align stopper hole with guide rod opening.

3

Pop-up Installation

Instruction for product with drain option only

- A. Remove rod guide nut (27) and rod ball rubber gasket.
- B. Insert horizontal rod (26) into drain body (23) and through hole in drain stopper (18).
- C. Replace rod guide nut (27) with rod ball rubber gasket and tighten it.

- A. Insert lift rod (24) through hole on faucet body. Connect horizontal rod (26) to extend rod (25) using spring clip (28) to hold and adjust.
- B. Attach extend rod (25) with lift rod (24) by inserting lift rod through extend rod hole. Now adjust lift rod (24) to correct height and hand tighten extend rod screw.
